UNIQUE CHOICE FOR YOUR FLOOR / TILE / CARPET.

# COMPANY PROFILE

Changzhou Zhuyou Display S&T Co., Ltd. is a manufacturer and service provider focusing on high-end customized commercial furniture. Our main business includes display tools, display project design, digital multimedia content services and home industry products.

For decades, Zhuyou has been deeply cultivated in the field of floor covering display, including flooring, carpet, ceramic tile and other related fields. We have been continuously studied and improved in R&D, production and sales. Now we're a leading enterprise in the field of floor covering display at home and abroad, and export to North America, Australia, Europe and etc.

In the future, we will use our professional experience in the display industry as well as our high-quality standards of products, combined with the vigorous development of 5G, to apply intelligent display to more commercial exhibition area. At the same time, Zhuyou focuses on the home and furniture industries, equipped with high-end manufacturing equipment and personnel, and will create an integrated product life cycle of "high-end customization, high-precision manufacturing and advanced processing" with innovative R&D and design services.

# ULTRAVIOLET CURING PAINT

## INTRODUCTION

UV coating is Ultraviolet Curing Paint, a new type of coating that is irradiated by ultraviolet photons and rapidly cured into a film by dip coating, drench coating, lacquer coating, spin coating, or vacuum coating. It has been recognized by the world's coating industry and most regulators because of its efficient coating and environmentally friendly features. Light curing technology is the best choice to increase production capacity, improve quality, reduce cost and reduce pollution.
